

Your personal invitation from Martin Kingman

Dear Prospective Member

As you may have seen I have set up an Alpha Board at the Innovation Centre in Rochester - this is my personal invitation to you to join my board. This is by invitation only. Please contact me to obtain a copy of the Agenda.

I would love you to be a part of this, I would like you to imagine being part of a group of people who are all committed to consciously improving their lives and manifesting their dreams. These individuals each bring unique perspectives, resources, skills, and contacts to the group. Most importantly, each one is committed to actively working towards their own goals—and supporting the other members in achieving theirs. A true win/win opportunity.

Napoleon Hill coined the concept of the mastermind alliance in his classic book Think and Grow Rich. He believed that a group of like-minded, achievement-oriented individuals could dramatically leverage each other's success. Of course people thereby have collaborated for mutual benefit since the beginning of time. The process of creating a Peer Mastermind Group simply provides a focus and structure for applying that support on an ongoing basis.

The 3 Keys to Peer to Peer Groups

A group is only as effective as the strength of these 3 elements:

- **The Structure:** Without a strong structure Peer groups tend to devolve into social gatherings or simply fade away. The structure ensures equal contribution and participation as well as maximum efficiency and effectiveness.
- **The Commitment:** The group must take priority in your life or you may as well not bother. Make this a priority and your life can literally transform. It is easy to let this, like other commitments in our life slide—with the same undesirable consequences. Reduced trust in self and others. Less results and progress on goals that are important to you. Far less pro-active support for your dreams.
- **The People:** The synergy created between like-minded people who are committed to growing, evolving and manifesting for themselves and others, can be a catalyst for everyone involved to attain new heights of achievement. Different perspectives can serve to ensure that people are seeing all sides of the equation. However,

people who are too dissimilar can struggle to find common ground and bring discord to the group.

Ask yourself: "What if there were 19 other people that as they moved forward in their life and business were also thinking about me, about how they could support me, how they could include me, how they could create for me, and I was doing the same for the other 19 people in my group... what might that mean to my life?" what would it mean to my business.

If this appeals to you then get in touch with me today as we can only have one person from each sector to ensure we keep a balanced board. You can lock out your competition and get yourself access to some likeminded business people to assist you and your business on your journey. I would love for you to experience the power of this board of non-executive directors working with you to build your business and develop your skills. I look forward to welcoming you to the board and helping you and your business on this amazing journey,
Kind regards

Martin

Specimen Agenda
